Revenue Tax Comments

1. Vendor's compensation is 2% up to a maximum of \$1,000.00 per month for state tax.
2. Local Maximum Tax is \$2,500.00 per single transaction as defined by local ordinances.
3. Business Licenses (sometimes referred as Business, Privilege, Occupational licenses) base varies between flat fee, employee count and inventory
4. AR Deaf and Hearing Impaired Telecommunications Services Corporation, Based upon per access line max of 100 lines at any single customer location.
5. Franchise Tax varies on rate, base, Pass Thru per Franchise agreement.
6. 911 (wireline) tax rate varies as follows: All counties charge 5% of intra-state toll except Pulaski (\$0.20 per line); Franklin, Madison, and Montgomery (12% of intra-state toll); and Van Buren (8% of intra-state toll)
- * If the tax is based on a percentage of intra-state toll, the exempted customers will be exempted from differing amounts; however if the rate is flat, the exempted customers will be exempt from the same amounts.

Property Tax Comments

1. Wireline - Central Assessments derived from Cost, Income and Market approaches with fixed weighting for each.
2. Wireless - Central Assessments derived strictly from the Cost approach (net book); however, the State has hinted at moving to a valuation with all three approaches

2 = Company must be a corporation for environmental tax to be applicable.

3 = Local sales tax schedule included in quarterly state sales tax return.

4 = California state and local sales tax only applies to retail sales of tangible personal property, not to services.

5 = Flat fee varies depending on the # of corporate, California-based employees per legal entity.

6 = Number of jurisdictions that apply tax provided by Bill Plugh, D&T SALT Group, San Francisco.

7 = Per schedule B, California S&U tax return. Since local sales taxes are filed with the state, no additional return is required.

8 = DEAF Surcharge is also referred to as "CA Relay Services & Communications Device Fund"

9 = Two examples are: 1) the City of Santa Ana has a UUT ordinance which exempts "Medium utility user taxpayers" from the UUT until further notice, and 2) the City of San Francisco UUT exempts "residential" customers

10 = One example of the variance is the City of Long Beach's business license ordinance which has been interpreted by the City tax collector as applying to each individual cell site as if it were its own separate business

11 = Business can seek reimbursement from customer.

Note 1 Hawaii Public Service Company Tax is levied on revenue derived from Public Utility business between points within Hawaii. (Hawaii Revised Statutes, Chapter 239) (monthly payments, annual return)

Note 2 Hawaii General Excise Tax is levied on the sale of tangible personal property and the provision of taxable services. Interstate or foreign common carrier telecommunication services which originate or terminate and are charged to a telephone number, customer or account in Hawaii are further apportioned to Hawaii by an "Industry Apportionment Factor" for taxation. The current industry apportionment factor is 47.86%. (Hawaii Revised Statutes, Chapter 237)

Note 3. Receipts from importing or wholesaling of tangible personal property for resale are taxed at 0.5%. Receipts from services rendered at the request of an "intermediary" for the benefit of an ultimate recipient, are taxed at 0.5%. Receipts of the intermediary are taxed at 4%.

Note 4. Assessment billed by Hawaii PUC on receipts subject to the Public Service Company Tax. No separate return is required. Payment is annually. (HRS 269)

Note 5. Telcos pay the PSC tax in lieu of a general property tax, with the exception of real property not used directly in telephone operations. All Telco and Main Street real property is assessed at the same tax rates in each county. Approximate rate is 0.84975%.

Note 6. Real property on a local level is assumed to be assessed at market, which incorporates all three approaches to value.

- 1) Effective January 1, 1998, valuation methodology was changed from a unit value to Replacement Cost New Less Depreciation. Years prior to 1998 were valued under cost, income and market (unit value), which included tangible and intangible property!
- 2) Personal Property of Main Street Business is exempt. Industrial machinery, equipment and computers were classified as real property and if first assessed after 1/1/95 are exempt. Taxable M&E and computers were assessed at 30% of net acquisition cost. Beginning in 1999, the property tax on existing M&E and computers will be eliminated over a 3 year period, so that by 1/1/2002, this property will be exempt.
- 3) All taxable property is assessed at the same rates in each tax district, regardless of the type of business.

Please List any general comments below that should be noted re: this state.

1) In theory property appraisal practices require the consideration of all three methods of valuation to determine FMV.

2) This is an aver. State rate of 7.8% & 33.3% assessment ratio excluding Cook county. Cook county has an assessment ratio of 38% for commercial property and 36% for Industrial property with a tax rate of approx. 10%.

3) The MIMF is in lieu of a municipality imposing a franchise fee. Some telephone companies have franchise agreements where the compensation varies.

The compensation range includes: concession phone lines, a flat amount per year, an annual amount per access line (up to \$3.60) or a percentage of gross receipts (up to .75%)

Please list any general comments below that should be noted re: this state.

- 1) Telcos are assessed on a unitary basis using all three approaches to value. Although all three approaches to value o value may be used for local real estate, Telco unitary valuations include all forms of intangibles, including business value (going concern, goodwill, etc.)
- 2) Generally, all classes of taxable property are taxed by the state, although at widely varying rates. Many of these classes are exempt from taxation by local government. Therefore, Telcos not only pay on the full value of intangible property, but also pay at the state rate of .45 on all tangible/intangible property, while other main street businesses are either paying at a lower rate or not at all.

On April 15, 1998 the state enacted an assessment to fund telecommunications equipment for people with disabilities (Title 26 sec. 1419-A). The PUC establishes the level of the assessment each year.

For fiscal year 1998-99 the assessment must be set at a level that generates \$85000.
